

EMDG

The Export Market Development Grant provides a 50% rebate on eligible overseas marketing costs above \$10,000.

EMDG acts to encourage Australian exporters to seek out and develop overseas markets.

These markets include goods and specified services and industrial property rights which are substantially of Australian origin.

The maximum grant payable to you is \$200,000 per annum for a maximum of 8 years.

BSI assists exporters to access overseas markets through **export market entry strategies** and **expansion plans**.

WHY BSI?

- > We do the work for you. With an intimate knowledge of EMDG we will review all current marketing arrangements, prepare all necessary documentation and lodge the application on your behalf.
- > BSI will review all current marketing contracts and assist in the preparation of any further marketing contracts required for export effectiveness and for EMDG purposes.
- > We are the first point of contact for queries from Government agencies such as the ATO or AusIndustry.
- > We will advise your company on maximising the EMDG entitlement over the available grant years.

BSI Services undertakes work in relation to EMDG on a **10% success fee**, payable only when you receive the grant.
